

THE PROGRAM OF ACTIONS OF THE CIVIC UNITY PARTY

The missions of the program of action of the CIVIC UNITY PARTY will be directed to develop Mongolia so that it could: keep up with the world development; encourage and prosper democracy, good governance and responsibility; have integrity in the international arena; and firmly stand on the path of sustainable development based on science, research, and civil participation; have further strengthened our cultural heritage, independence and sovereignty; have the population who are free, highly ethical and happy.

To reach these missions, CUP will work hard and be a progressive party that brings a new time. In doing so, it will lead the following new and progressive changes while ensuring the continuity of the state activities of the past generations:

- **Mongolians will be more responsible, enjoy good governance more, and the honesty, education and ethics will be highly valued.** The party will strengthen the foundation of the national security, solidarity and consensus by ensuring the public education, ethical maturity and unity of the values.
- **With active participation of citizens, the sustainable development models will be introduced in all sectors of economy.** The party will encourage discussions to protect environment, combat desertification, reduce the impacts of global warming, and support the sustainable solutions at all levels.
- **Financial discipline, budget transparency will be improved and reliability and safety of the finance and banking system will be sharply increased.** The changes will be made in order to avoid internationally black or grey listed. The party will actively work in order to get the national banking system acknowledged internationally and increase the currency reserves in order to provide sustainable economic development.
- **Human rights conditions will be sharply improved.** The party will put forward human rights requirements in all areas of politics, economy and governance, and the society in a whole will be humane and friendly.
- **Mongolia will be developed into greener and cleaner country.** The party will encourage green economy and bring the waste management in a new level, especially hazardous waste management will be paid special attention and necessary government decisions will be made to eliminate the silent danger of hazardous waste.

- **The foreign relations will be improved with the neighboring countries and the third neighbor countries, as well as in the region and the country's interests will be protected in international relations.** The party will work towards leading the Mongolia's efforts to contribute in solving global issues, such as world economic crisis, environmental and public health issues, with the support of international efforts. Being aware of the global long-term approach concerning the coal, the party will pursue policies to diversify the economy in other directions.

ONE. THE CIVIC UNITY PARTY WILL BE A DETERMINED FORCE FOR DEMOCRACY

In implementing national security policies, the party will work toward strengthening the national interests that are based on citizens' patriotism, state-citizens' collaboration, knowledge, research and analysis and with consideration of the globalization factors.

The party will work towards affirming sustainable and long-term existence of democracy which is one of the guarantees of the national security.

The party will initiate proposals to reduce the cost of politics and will lead in this area with our own activities.

The party will lead a long-term stable policies towards strengthening capacities and independence of political institutions such as the government, court, parliament, political parties and other institutions.

The party will always support the budget appropriation power of the Parliament and the Cabinet and their full accountability before the people, and distancing the Presidential institution from a political divide.

TWO. THE CIVIC UNITY PARTY WILL BE A SUPPORTER FOR SUSTAINABLE DEVELOPMENT

The party will pay special attention in bringing universal goals for the country for overcoming post-COVID inflation and economic challenges, and in directing the government and the business entities for channeling their limited resources prudently, and in constructing healthy and sustainable economy that could ensure a long-term growth.

The party will support multilateral consensus of the society, behavioral changes of the citizens and collaboration of clusters that are necessary in ensuring sustainable development.

The party will take measures to improve the national capacity in climate adaptation and mitigation of the climate change, and use international mechanisms and multilateral participation in such activities.

While keeping the traditional nomadic herding, the party will encourage its adaptation to climate change by facilitating faster turnout of the products, creating hay management businesses based on water resource and citizens' participation, and will improve the quality of life in countryside significantly.

The party will develop such a business and labor division that would fit the lifecycles of the nomad. Нүүдэлчин малчдын аж ахуйн тойрогт тохирсон, орон нутгийн иргэдийн төлбөрийн чадвар, хамтран ажиллах горимд нийцэхүйц, үндэсний үйлдвэрлэлийн чадавхыг удаан хугацаанд тогтвортой өсгөж ажиллаж чадах, өртөг багатай улирлын үйлдвэрлэл бүхий бизнесийн зохион байгуулалтыг хөгжүүлнэ.

THREE. THE PARTY WILL BE A SUPPORTER AND IMPLEMENTOR OF GOOD GOVERNANCE

One of the resources of our economy is a governance resource. We have enough natural resources, but we don't have enough good governance and accountability. Therefore, in order to truly take advantage of our internal economic resources, we will spread, prosper, promote accountability, financial discipline, high ethics of work and good governance, and will lead in implementing them in our own actions.

We will call our people to introduce good governance in all products with the address of Mongolia on them. We aim that both the results and processes to create good name for Mongolia. This way, we shall start making changes in quality so that any product made in the herder's camp or in cities, aimags, soums, khoros and duuregs can meet high standards of the world market.

FOUR. THE PARTY WILL AIME FOR HUMAN DEVELOPMENT AND RESPECT HUMAN RIGHTS.

The party will be a defender of human rights. It will work diligently in order to let the citizens freely exercise their rights and freedoms guaranteed by the Constitution of Mongolia.

It will initiate projects and programs aimed to protect gene pools of the Mongolians, the families and gender equality. In its own activities, the party will ensure gender equality at decision making levels.

FIVE. THE PARTY WILL BE EXEMPLARY IN TURNING THE GOVERNMENT ORGANIZATIONS PROFESSIONAL, ETHICAL, ECONOMICAL AND EFFICIENT.

It is essential to protect civil services from politics, and to employ professionals in decision making positions in multiple numbers. We will be demanding this from all ruling parties.

In the state army policies, we will introduce cultures to strictly prohibit the use brutality and violence in the army.

The party will implement in our own actions the requirements to serve in the government with knowledge and ethics and work highly efficiently and for public interests.

SIX. THE PARTY WILL BE BROADENING THE FOREIGN RELATIONS

The party will work towards opening multiple foreign opportunities for our economy by putting Mongolia in a decent position in the international relations and by friendly collaboration with the countries of the globe.

The party shall aim to improve professionalism and will stop political appointments and irresponsibility in diplomatic services. We shall hold the principles that the best patriots serve in the diplomatic services. Our international reputation and economic and cultural relations can grow thanks to highly capable and professional patriot-diplomats. The diplomatic services shall not be a holiday place for politicians but shall be frontlines for patriots who work tirelessly.

SEVEN. THE PARTY SHALL BE A PROMOTER OF THE NATIONAL CULTURAL HERITAGE

The party will show leadership in protection, transmission and development of the national cultural heritage and its promotions to make activities of the all parties of the society.

The party will increase the literacy of the government officials in the traditional Mongolian scripts. It will promote and encourage those who replenish, disseminate and transmit the national cultural heritage, traditional civilization, intellectual fund and capacity of the nation.

EIGHT. THE PARTY WILL BE THE PROMOTER OF THE DEVELOPMENT OF THE PRIVATE SECTOR

The party will constantly support the private sector. It will work towards creating new opportunities to develop private sector enterprises as clusters. It will hold the position to oppose the nationalization of private sector. Instead, it will support the privatization of the state properties. If inappropriate monopoly takes over the market, the issue shall be solved by expanding the private sector but not by nationalization.

The party will initiate effective market mechanisms that meet the public interests in order to prevent from uncomfortable consequences of potential antagonist tensions between the public interests and the private sectors that could be caused by conflicts related to the use, purchase, re-sell, and putting into circulation of the public properties, land and licenses.

For example, the long term economic foundation based on private sector could be asserted by introducing public interest market mechanisms such as license transferring fee, sales fee, registration fee and ecological damage reimbursement fee.

NINE. THE PARTY WILL INCREASE THE PERSONAL MANAGEMENT OF THE POPULATION.

COVID transmission has changed our lives. In order to protect people's safety in future, it is essential to keep the personal hygiene, personal management, health, and science education of the people high. For the health and safety of the people, the party will pay attention to increasing public education. We aim to create a country where the people can work, be employed, earn their incomes, and educate their children in whatever hard conditions occur.

The party will encourage and disseminate means that are accessible to all in order to exercise their rights and freedoms to work, to conduct businesses, to assemble, create clusters despite geographical distances or/and public health and safety measures. Among the means, the party will adapt and use online technologies in its own activities first of all. The party will sharply increase the population's capacity to work in online space. It will introduce online work cultures diligently.

TEN. THE PARTY WILL BE A NORMALIZER OF THE RULE OF LAW

The party will refrain from one person's authoritarian governance that opposes to the rule of law. The Constitution of Mongolia declares that any issues in our country should be resolved by laws and legislations. The party will work diligently in order to make the living by the rule of law a norm and it will normalize the rule of law in its everyday work culture. The party will work to prevent from any attempts where decision makers try to add unlawful powers for themselves.

ELEVEN. THE PARTY WILL BE A DISSEMINATOR OF VOLUNTEERISM FOR PUBLIC GOOD

There are many positive changes that can be reached thanks to active participation and initiatives of citizens. It is not necessary for the government to participate in all changes of the development, instead, we believe that the government shall not hinder the good changes happening thanks to citizens' initiatives. Also, the party will be against the inappropriate government intrusion in the positive changes that are happening thanks to citizens' initiatives by breaking it down, and by turning it into an unsustainable model, by destroying its efficiency by one-time campaigns and heavy budget spending. Instead, the party will be helping spread the positive changes created by free, ethical and good willed citizens by assisting only in means that are necessary for their organic growth, and ensuring long term sustainability.
